2011/2012 Compliance Update - PAYG Tax Tables

Question

Where can I access the 2011 Compliance Update software, including the 2011/2012 PAYG tax tables?

Answer

The end of the financial year can be a daunting period for small businesses. The obligations that accompany this time of year - completing BAS, distributing PAYG Payment Summaries to employees, and providing information to your accountant - can distract you from concentrating on what you do best – providing great service to your customers.

MYOB is here to help and can provide all the information and tips you need to ensure you start the new financial year in the best possible shape.

If you are having trouble installing the update, see our support note [Unable to install the 2011 compliance update](#).

Obtaining the 2011/2012 compliance update

- Go to our [End of Financial Year Support Page](#) for instructions on obtaining this update.
- You must be using AccountRight v19.5 to be able to download the 2011/2012 compliance update from within your software. Take a tour of this feature by watching our [demonstration video](#).
- AccountEdge and PowerPay users can go to our website compliancedownloads.myob.com to download the compliance update.
- Our support note [PAYG Tax Tables](#) contains information on loading the new tax tables after you obtain the update.

What's included in the 2011/2012 update?

Note: Visit our [tax changes FAQ web page](#) to see more details of what's included in the update and how the 1st July tax changes might affect your business.

This updated includes:

- New tax tables to ensure your software is ATO compliant for the 2011/2012 payroll year.
- New flood levy changes

- Tax scales relating to HECS, HELP, SFSS and the Medicare Levy exception scales have been updated with the new indexation
-

Need additional support?
