## MYOB Cover members

The 2011/12 Compliance Update is now available.

There are two different processes for downloading this release - depending upon the software product that you have installed:

### [EOFY Resource Centre](#)

Visit the [MYOB Cover EOFY resource centre](#) for:

#### **AccountRight software**

Using MYOB AccountRight software? Getting your Compliance Update is easy.

**You must be running AccountRight version 19 or version 19.5 to install the 2011/2012 compliance update.**

To check which version you are running:

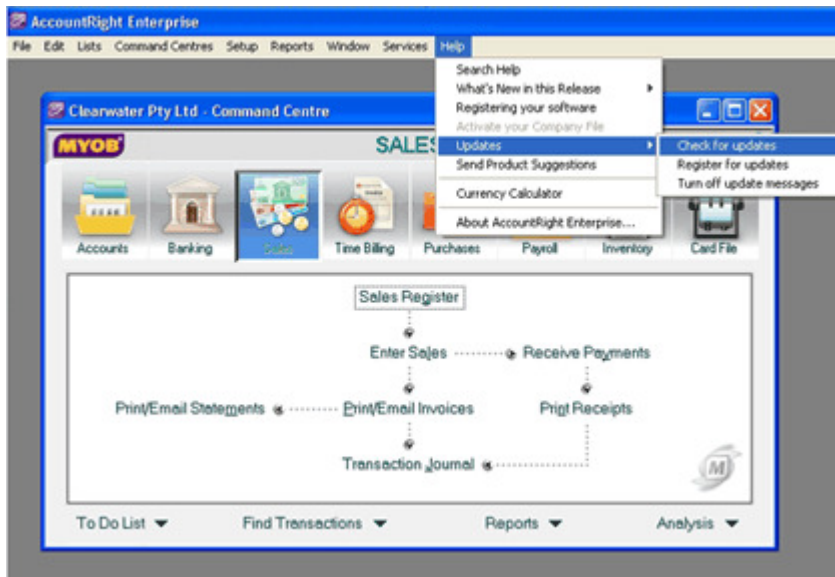

1. Open your software, click **Help > About MYOB**.
2. If you are running:
  - **Version 19 or version 19.5:** follow the [instructions below](#).
  - An earlier version: visit [compliancedownloads.myob.com](http://compliancedownloads.myob.com) to download the update.

With AccountRight version 19 is installed, you can get the version 19.6 compliance update using our **Auto Update** feature! Here's how:

#### **1. Register to receive Auto Updates**

Simply open your software, click **Help > Updates > Register for updates**.

- 2011/12 Compliance Update technical documentation
- EOFY 'show me how' videos

In the registration window, enter your 12 digit serial number and click **Register for Updates**.

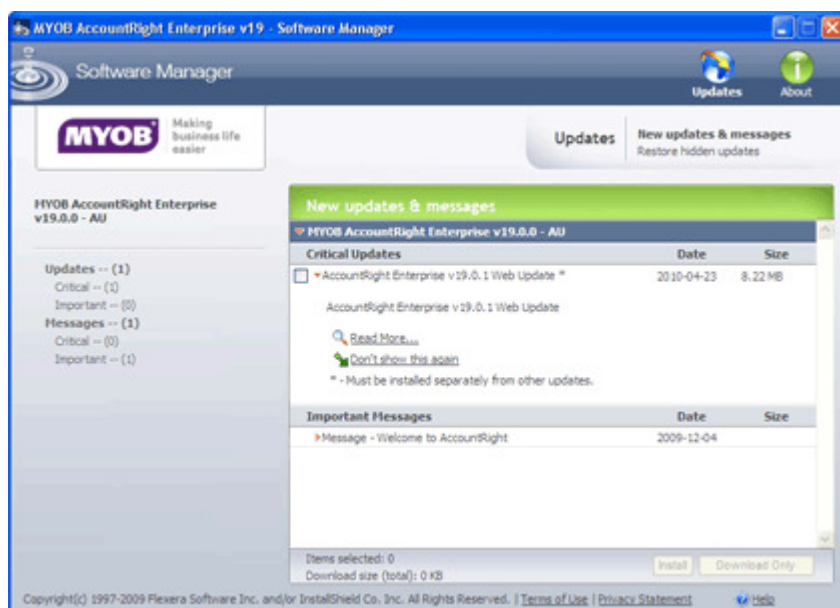

## 2. Install the update

When the update is available, you should:

Open your software and go to the **Help menu**, choose **Updates** and then **Check for updates**. The Software Manager window appears.

(Version 19 users: If you're using v19, you'll first need up update to v19.5 and then repeat this step to update to v19.6)

Select the update and click:

- **Install** to install the update immediately.
- **Download Only** to download the update file to your computer and install it later.

It's that easy ! Get back to business fast.

## All other products

For all other products such as **AccountEdge** and **PowerPay**, visit [compliancedownloads.myob.com](http://compliancedownloads.myob.com) to download the compliance update.
